

What is the best bulb for me?

The answer depends on the bulb's application and your lighting need within the space. For standard sockets (E26), there are three main types of bulbs:

Incandescent bulbs

Screw-in CFL bulbs

Halogen bulbs

When selecting a bulb you should consider:

				
Efficiency	<u>Reduced energy usage</u>		✓	✓
	<u>3000+ hours lamp life</u>		✓	✓
Location	<u>Living Spaces</u>	✓		✓
	<u>Utility Spaces</u>	✓	✓	
Price	<u>Low operating cost</u>		✓	✓
	<u>Low price</u>	✓		✓
Controllability	<u>Timers and sensors</u>	✓		✓
	<u>Fully dimmable</u>	✓		✓
Performance	<u>Instant start-up</u>	✓		✓
	<u>Installs anywhere</u>	✓		✓
Sustainability	<u>Mercury-free</u>	✓		✓
	<u>Disposable</u>	✓		✓
Quality	<u>Excellent color rendering</u>	✓		✓
	<u>Flicker-free operation</u>	✓		✓

Did you know?

Dimming halogen bulbs by just 30% offers all the benefits of CFL and standard incandescent lights without any of the drawbacks.
